- Urgent services outside your Personal Physician Service Area, but outside of Mexico \$50 per visit
- Urgent Services Outside your Personal Physicians Service Area, but Within Mexico \$25 per visit

- 1 Copayments marked with a (1) do not accrue to calendar-year copayment maximum. Copayments and charges for services not accruing to the member's calendar-year copayment maximum continue to be the member's responsibility after the calendar-year copayment maximum is reached. Please refer to the Evidence of Coverage, and the plan contract for exact terms and conditions of coverage.
- 2 For emergency services, the personal physician must be notified within 24 hours after care is received, unless it is not reasonably possible to do so. The services will be reviewed retrospectively by the Plan to determine whether the services were for a medical condition for which a reasonable person would have believed that he or she had an emergency medical condition. Please note that an approved referral by Access Baja HMO and Blue Shield of California to receive medical services in California does not constitute nor grant legal authorization for the member to enter the United States. Individuals who lack the necessary border documentation for the purpose of seeking medical services in the United States should apply to the United States Immigration and Naturalization Service (INS) for authorization.
- 3 Personal Physician and Specialist Office Visits/Consultations include chemotherapy, radiation therapy, diabetic counseling, and second opinion consultations when authorized by the Plan.
- 4 Skilled nursing services are limited to 100 preauthorized days during a calendar year except when received through a hospice program provided by a participating hospice agency. This 100 preauthorized-day maximum on skilled nursing services is a combined maximum between SNF in a hospital unit and skilled nursing facilities.
- 5 Members are encouraged to use appropriately the "911" emergency response system, in areas where the system is established and operating, (in Mexico, use "066") when they have an emergency medical condition that requires the emergency response.
- 6 Coverage is provided for drugs determined by the personal physician to be medically necessary. Drugs obtained at non-participating pharmacies are not covered unless medically necessary for a covered emergency.
- 7 This plan's prescription drug coverage is on average equivalent to or better than the standard benefit set by the federal government for Medicare Part D (also called "creditable" coverage). Since this plan's prescription drug coverage is creditable, you do not have to enroll in Medicare Part D while you maintain this coverage; however, you should be aware that if you have a subsequent break in this coverage of 63 days or more before enrolling in Medicare Part D you could be subject to payment of higher Medicare Part D premiums.
- 8 For a listing of severe mental illnesses including serious emotional disturbances of a child and other benefit details, please refer to the Evidence of Coverage or Plan Contract.
- 9 Inpatient services for acute detoxification are covered under the medical benefit, see hospitalization services for benefit details.
- 10 For home health care visits in Mexico, services will be rendered by a Mexican registered nurse contracted by the IPA.
- 11 Copayment does not apply when procedure is performed in conjunction with delivery or abdominal surgery.
- 12 This benefit can be exercised only within California; Copayment applies to physician services in the office or outpatient hospital facility.

Plan designs may be modified to ensure compliance with state and federal requirements.
