Optional Benefits

Optional dental, vision, substance abuse treatment or infertility benefits are available. If your employer purchased any of these benefits, a description of the benefit is provided separately.

- Member is responsible for copayment in addition to any charges above allowable amounts. The coinsurance indicated is a percentage of allowed amounts. Preferred providers accept Blue Shield of California Life & Health Insurance Company's (Blue Shield Life) allowable amount as full payment for covered services. Non-preferred providers can charge more than these amounts. When members use non-preferred providers, they must pay the applicable copayment plus any amount that exceeds Blue Shield Life's allowable amount. Charges in excess of the allowable amount do not count toward the calendar-year deductible or out-of-pocket maximum. Payments applied to your Calendar Year Deductible accrue towards the Maximum Calendar Year Out-of-Pocket Responsibility.
- The preventive care and well-baby care office visit are not subject to the plan deductible. Other covered non-preventive services received during or in connection with the office visit are subject to the plan deductible and the applicable copayment percentage.
- Participating ambulatory surgery centers may not be available in all areas. Regardless of their availability, you can obtain outpatient surgery services from a hospital or an ambulatory surgery center affiliated with a hospital, with payment according to your health plan's hospital services benefits.
- The maximum allowed charge for non-emergency hospital services received from a non-preferred hospital is \$600 per day. Members are responsible for 40 percent of this \$600 per day, plus all charges in excess of \$600. Payments that exceed the allowed charge do not count toward the calendar-year out-of-pocket maximum, and continue to be charged after it is reached.
- Bariatric surgery is covered when pre-authorized by Blue Shield. However, for members residing in Imperial, Kern, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara and Ventura Counties ("Designated Counties"), bariatric surgery services are covered only when performed at designated contracting bariatric surgery facilities and by designated contracting surgeons; coverage is not available for bariatric services from any other preferred provider and there is no coverage for bariatric services from non-preferred Providers. In addition, if prior authorized by Blue Shield Life and Health, a member in a Designated County who is required to travel more than 50 miles to a designated bariatric surgery facility will be eligible for limited reimbursement for specified travel expenses for the member and one companion. Refer to the Certificate of Insurance for further benefit details.
- Services may require prior authorization by Blue Shield. When services are prior authorized, members pay the preferred or participating provider amount.
- This plan's prescription drug coverage is on average equivalent to or better than the standard benefit set by the federal government for Medicare Part D (also called "creditable" coverage). Since this plan's prescription drug coverage is creditable, you do not have to enroll in Medicare Part D while you maintain this coverage; however, you should be aware that if you have a subsequent break in this coverage of 63 days or more before enrolling in Medicare Part D you could be subject to payment of higher Medicare Part D premiums.
- If the member requests a Brand Name Drug when a Generic Drug equivalent is available, the member is responsible for paying the difference between the cost to Blue Shield of the Brand Name Drug and its Generic Drug equivalent, as well as the applicable Generic Drug Copayment. This difference in cost that the member must pay is not applied to the Calendar Year Deductible and is not included in the Calendar Year maximum out-of-pocket responsibility calculations.
- Please note that if you switch from another plan, your prescription drug deductible credit from the previous plan during the calendar year, if applicable, will not carry forward to your new plan.
- For the Outpatient Drugs benefit, covered drugs obtained from Non-Participating Pharmacies will be subject to and accrue to the deductible and the copay maximum for Preferred Providers.
- Specialty drugs are covered only when dispensed by select pharmacies in the Specialty Pharmacy Network unless Medically Necessary for a covered emergency.
- Selected formulary and non-formulary drugs require prior authorization by Blue Shield for Medical Necessity, and when effective, lower cost alternatives are available.
- Specialty Drugs are specific Drugs used to treat complex or chronic conditions which usually require close monitoring such as multiple sclerosis, hepatitis, rheumatoid arthritis, cancers, and other conditions that are difficult to treat with traditional therapies. Specialty Drugs are listed in the Blue Shield Outpatient Drug Formulary. Specialty Drugs may be self-administered in the home by injection by the patient or family member (subcutaneously or intramuscularly), by inhalation, orally or topically. Infused or Intravenous (IV) medications are not included as Specialty Drugs. These Drugs may also require special handling, special manufacturing processes, and may have limited prescribing or limited pharmacy availability. Specialty Drugs must be considered safe for self-administration by Blue Shield's Pharmacy & Therapeutics Committee, be obtained from a Blue Shield Specialty Pharmacy and may require prior authorization for Medical Necessity by Blue Shield.
- Mental health services are accessed through Blue Shield of California Life and Health Insurance Company's Mental Health Service Administrator (MHSA) - using Blue Shield's MHSA participating and non-participating providers. Only Blue Shield MHSA contracted providers are administered by the Blue Shield MHSA. Behavioral health services rendered by non-participating providers are administered by Blue Shield. For a listing of severe mental illnesses, including serious emotional disturbances of a child, and other benefit details, please refer to the Certificate of Insurance or Group Policy.
- Optional substance abuse treatment benefits are available. If your employer purchased these benefits, a description of the benefit is attached hereto as "Additional Substance Abuse Treatment Benefits."**
- Chiropractic visits accrue to the calendar-year visit maximum regardless of whether the plan deductible has been met.
- Inpatient services for acute detoxification are covered under the medical benefit; see hospitalization services for benefit details. Services for medical acute detoxification are accessed through Blue Shield using Blue Shield's preferred providers or non-preferred providers.
- Out of network home health care, home infusion and hospice services are not covered unless pre-authorized. When these services are pre-authorized, the member pays the Preferred Provider copayment.
- Copayment shown is for physician's services. If the procedure is performed in a facility setting (hospital or outpatient surgery center), an additional facility copayment may apply.

Plan designs may be modified to ensure compliance with state and federal requirements
